

# GROW LIKE A PRO

## FIVE REASONS YOUR CANNABIS OPERATION SHOULD USE CULTIVERA PRO

### All-In-One

Everything you need in one place. From monitoring your harvest to seamlessly managing inventory, waste, and sales, accessing lab results, approving orders, to generating manifests, all in one system.

### Automated Compliance

Minimize manual data entry, reduce human error, and save hours of time with automation at every turn. Pre-populated labels, forms, & reports; inventory and fulfillment tracking; invoicing; manifests; barcode capabilities; and more.

Cultivera Pro keeps you in compliance while saving you time and effort, so you can focus on keeping your operation growing.

### Free Training

We offer one-on-one training with responsive, human support, whether your operation has a team of five, fifty, or five-hundred. Whenever you have questions, our onboarding and support experts are there to guide you, every step of the way.

### No Order Fees

Once invited to your B2B store, retail partners can order from your live inventory without worrying about fees or order conflicts, while inventory managers can easily specify which products & discounts are available, or approve incoming orders.

### Traceability Simplified

Vertically integrated state traceability from seed to sale: simplified reporting, optional automation, integrations, and a full-blown business management suite for all aspects of your track-and-trace needs.
